## Folding Instructions

1. Cut the Fortune Teller out of the previous page.

2. Fold the square in half along the dotted line from top to bottom and then unfold it. You'll need the crease later on. Now fold from left to right and unfold.

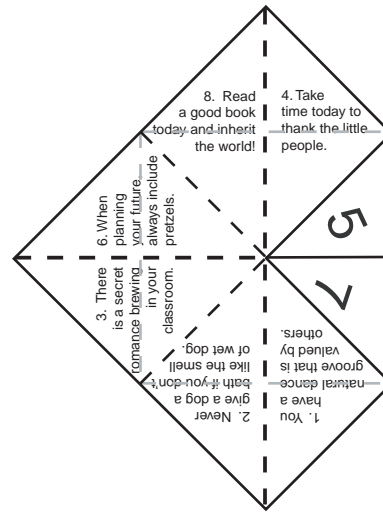

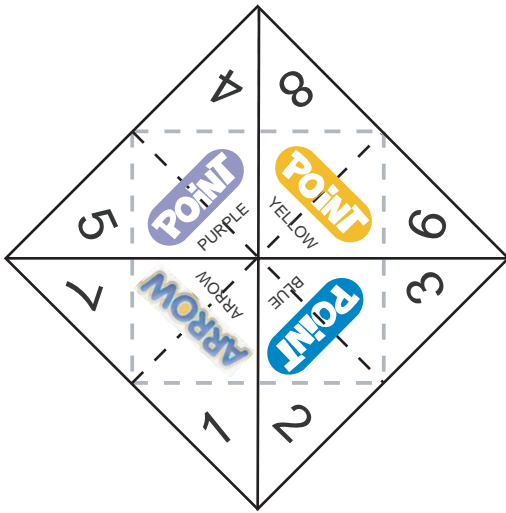

3. Now fold the square in half diagonally along dotted line and unfold it. Do the same along the other diagonal and then flip the square over so the printed side is face down.

4. Fold each of the four corners to the middle of the square, this is where all the creases from the previous steps meet!

## Folding Instructions

5. You should end up with something like this. Now, flip it over so the number side is face down.

6. Fold each of the four corners to the middle of the square.

7. You should end up with something like this. Fold it in half from side to side, unfold it and fold it again from top to bottom.

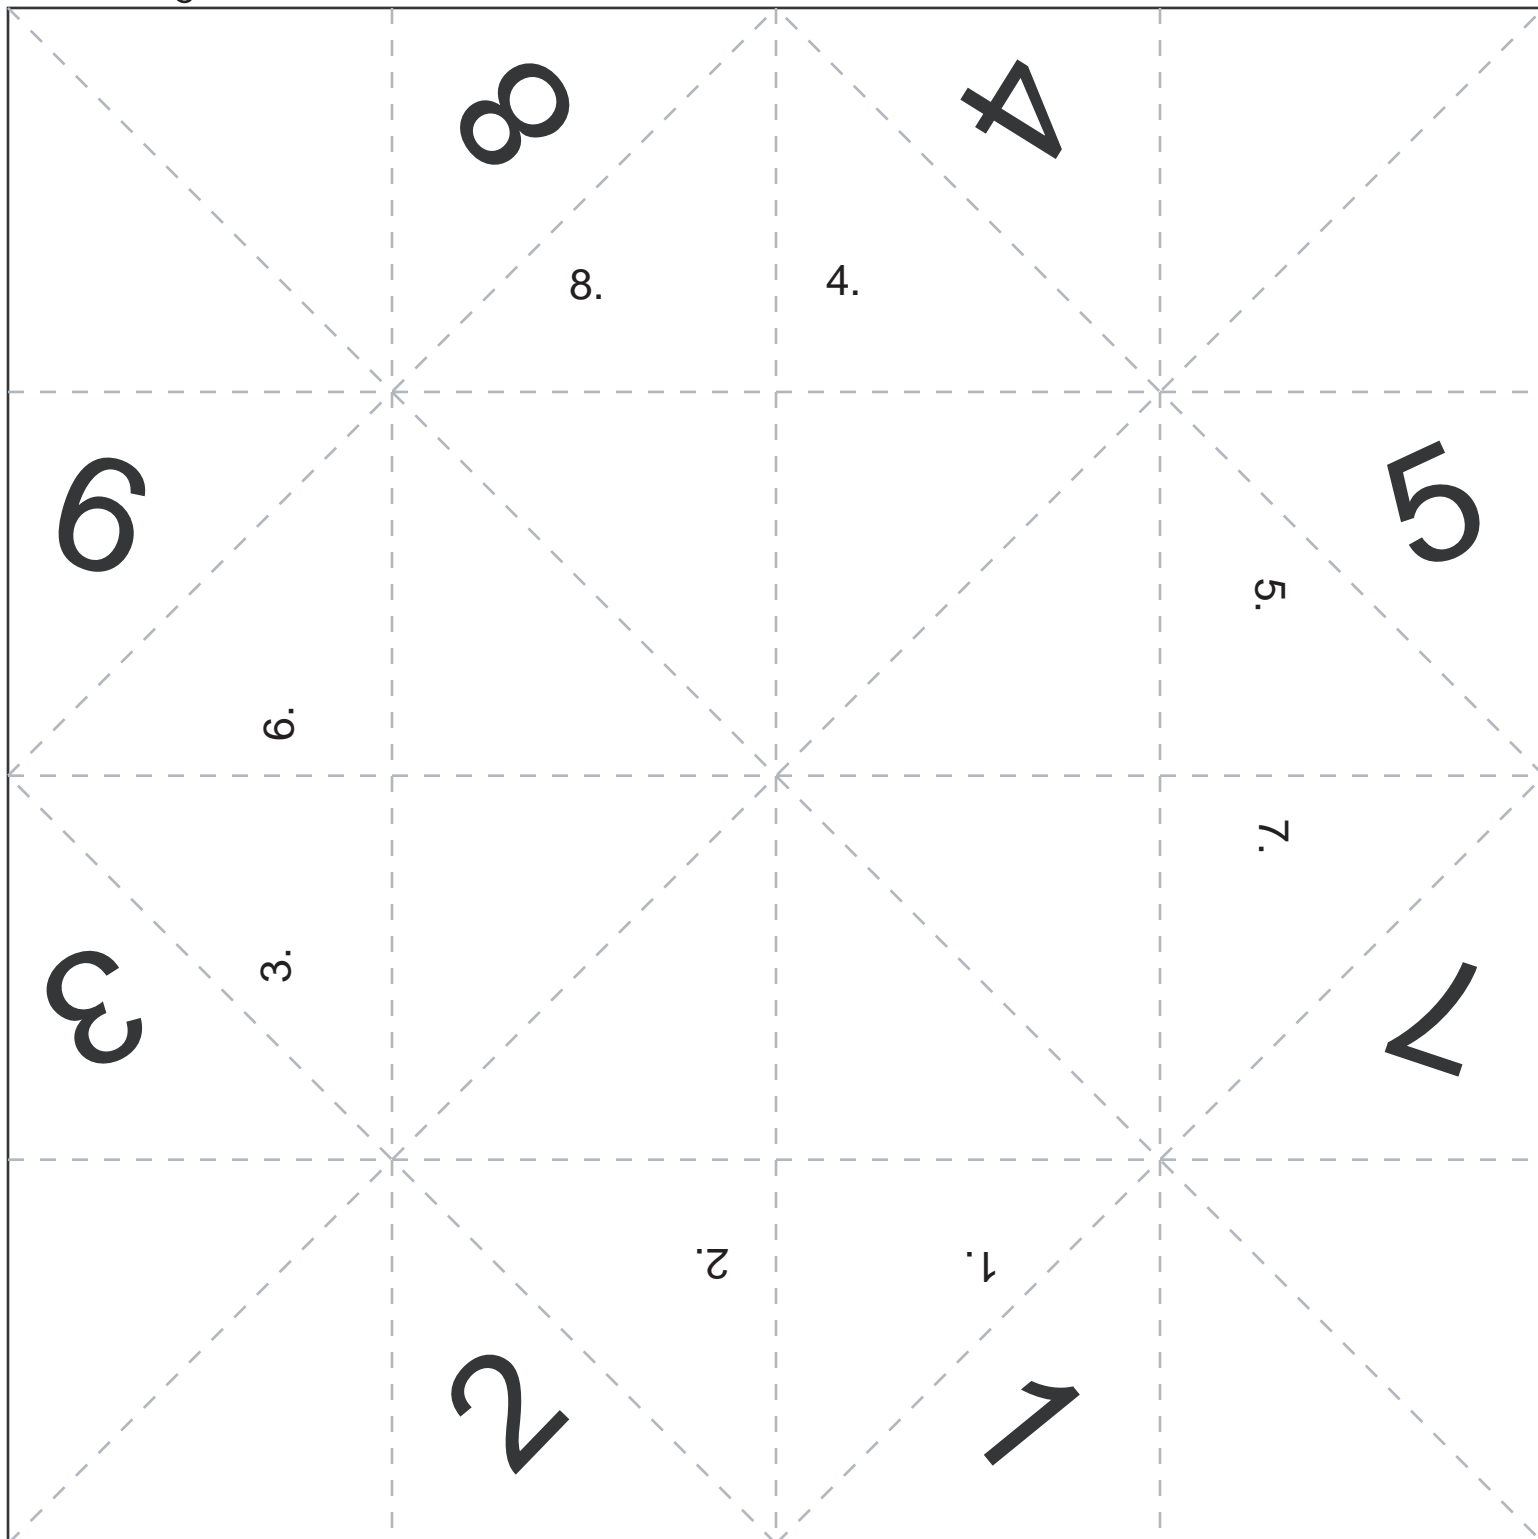

8. Now for the tricky part! Using both hands, put your index fingers and thumbs under the flaps and push them into the four corners. The folds should form points. Bring the points together. Now you are ready to use your POINT Fortune Teller!

## Fortune Telling Instructions

Hold the Fortune Teller closed (make sure you can't see any of the numbers). Hold it up to a friend and ask them to pick a colour. Spell out the color, for example, B - L - U - E while opening and closing the Fortune Teller in opposite directions for each letter. Hold it open at the last letter with the numbers now showing and ask them to pick one from inside. Now open and close the Fortune Teller that number of times. Have them pick another number and then open the flap with that number on it...and your friend's fortune will be revealed!
